

**1. JSC "Orshaagroprommash" (Baranovichi city, Kirova street, 79)  
There can be placed 8 industrial sites:**

Industrial site on the land area of 2.4736 hectares with a production building area of 16006.4 m<sup>2</sup>, an open metal warehouse with an area of 1723 m<sup>2</sup> and a site of a metalwork plant with an area of 3014 m<sup>2</sup>.

It is possible to locate production facilities with a SPZ size of 50-100-300 m. Enterprises with a SPZ of 300 m should be located in the depth of the enterprise territory.

- chemical production, production of rubber and plastic products and other non-metallic mineral products, paints;
- manufacture of perfumery and cosmetic products
- metallurgical production;
- manufacture of finished metal products;
- manufacture of machinery equipment;
- the enterprise on repair of road cars, cars, bodies;
- polygraphic combines and printing houses;
- manufacture of jewelry;
- woodworking;
- production and assembly of furniture;
- production of building materials;
- manufacture of glass;
- car service enterprises with car washes;
- transport and logistics facilities.

Industrial site on the land area of 1.0677 hectares with a two-storey administrative building with an area of 1659 m<sup>2</sup>, a 1284 m<sup>2</sup> water tank, a neutralization building with an area of 352.7 m<sup>2</sup> and a highway of 2358 m<sup>2</sup>. It is possible to locate production facilities with a SPZ size of 50-100-300 m. Enterprises with a SPZ of 300 m should be located in the depth of the enterprise territory.

- chemical production, production of rubber and plastic products and other non-metallic mineral products, paints;
- production of perfumery and cosmetic products;
- metallurgical production;
- manufacture of finished metal products;
- manufacture of machinery equipment;
- the enterprise on repair of road cars, cars, bodies;
- polygraphic combines and printing houses;
- manufacture of jewelry;
- woodworking;
- production and assembly of furniture;
- production of building materials;
- manufacture of glass;
- car service enterprises with car washes;

- transport and logistics facilities.

Industrial site on the land area of 0.3720 hectares with a two-story brick building with a compressor area of 733.3 m<sup>2</sup>.

It is possible to locate production facilities with a SPZ size of 50-100-300 m.

- chemical production, production of rubber and plastic products and other non-metallic mineral products, paints;
- production of perfumery and cosmetic products;
- manufacture of finished metal products;
- polygraphic combines and printing houses;
- manufacture of jewelry;
- woodworking;
- production and assembly of furniture;
- textile, clothing manufacture;
- manufacture of leather, leather goods;
- manufacture of footwear;
- manufacture of wallpaper;
- production of building materials;
- manufacture of glass;
- parking, car parking, service station;
- procuring points of secondary raw materials;
- dry cleaning.

Industrial site on the land area of 1,1024 hectares with sites of the factory area of 3406 m<sup>2</sup>. It is possible to locate production facilities with a SPZ size of 50-100-300 m. Enterprises with a SPZ of 300 m should be located in the depth of the enterprise territory.

- woodworking;
- production and assembly of furniture;
- car service enterprises with car washes;
- procuring points of secondary raw materials;
- transport and logistics facilities.

Industrial site on the land area of 0,2682 hectares with a checkpoint of 10.5 m<sup>2</sup>, a metal canopy with an area of 338.8 m<sup>2</sup>, a plant site with an area of 1686 m<sup>2</sup>.

It is possible to locate production facilities with a SPZ size of 50-100 m.

- woodworking;
- production and assembly of furniture;
- car service enterprises with car washes;
- procuring points of secondary raw materials;
- dry cleaning.

Industrial site on the land area of 0.2260 hectares with a brick building of an acid warehouse with an area of 488 m<sup>2</sup>.

It is possible to locate production facilities with a SPZ size of 50-100-300 m.

- chemical production, production of rubber and plastic products and other non-metallic mineral products, paints;
- production of perfumery and cosmetic products;
- manufacture of finished metal products;
- polygraphic combines and printing houses;
- manufacture of jewelry;
- woodworking;
- production and assembly of furniture;
- textile, clothing manufacture;
- manufacture of leather, leather goods;
- manufacture of footwear;
- manufacture of wallpaper;
- production of building materials;
- manufacture of glass;
- car service enterprises with car washes;
- dry cleaning.

Industrial site on the land area of 0.5083 hectares with a warehouse of cylinders with ramp with an area of 306 m<sup>2</sup>.

It is possible to locate production facilities with a SPZ size of 50-100-300 m.

- chemical production, production of rubber and plastic products and other non-metallic mineral products, paints;
- production of perfumery and cosmetic products;
- manufacture of finished metal products;
- polygraphic combines and printing houses;
- manufacture of jewelry;
- woodworking;
- production and assembly of furniture;
- textile, clothing manufacture;
- manufacture of leather, leather goods;
- manufacture of footwear;
- manufacture of wallpaper;
- production of building materials;
- manufacture of glass;
- parking, car parking, car service enterprises with car washes.

Two industrial sites on the land area of 2,2139 ha and 0.4901 ha with a two-storey block workshop with an area of 3748 m<sup>2</sup>, a cement warehouse with an area of 63 m<sup>2</sup>, a warehouse of bulk materials with an area of 1885.3 m<sup>2</sup>, a garage building with an area of 459.7 m<sup>2</sup>, a garage building with an area of 30.5 m<sup>2</sup>, a lime warehouse with an area of 119.6 m<sup>2</sup>, an open warehouse of finished goods with an area of 4226 m<sup>2</sup>, a road of concrete blocks with an area of 9048 m<sup>2</sup> and a highway of a metalwork factory with an area of 310 m<sup>2</sup>.

It is possible to locate production facilities with a SPZ size of 50-100-300 m. Enterprises with a SPZ of 300 m should be located in the depth of the enterprise territory.

- chemical production, production of rubber and plastic products and other non-metallic mineral products, paints;
- manufacture of perfumery and cosmetic products
- metallurgical production;
- manufacture of finished metal products;
- manufacture of machinery equipment;
- the enterprise on repair of road cars, cars, bodies;
- polygraphic combines and printing houses;
- manufacture of jewelry;
- woodworking;
- production and assembly of furniture;
- production of building materials;
- manufacture of glass;
- car service enterprises with car washes;
- transport and logistics facilities.

Enterprises of food industries, wholesale warehouses of food raw materials and food products; objects for the production of medicines, warehouses of raw materials and intermediates for pharmaceutical enterprises, facilities for growing agricultural crops used to feed the population can't be placed.
